Tanveer Hussain

MERN Stack Developer

Objective

As a passionate and motivated final-year IT student, I am eager to apply my knowledge and skills in front-end development through an internship opportunity. With a strong foundation in HTML, CSS, Bootstrap, JavaScript and React, I have successfully completed multiple projects, including interactive web applications and responsive websites.

My ability to adapt quickly to new technologies and my attention to detail ensure that I can tackle challenges and deliver high-quality results. I am excited about the opportunity to work in a dynamic environment where I can grow as a developer while contributing to innovative projects.

Education

University of Education

Township Campus, Lahore
BS in Information Technology
GPA 3.52

Key Skills

HTML5	**Frameworks**
CSS3	Tailwind, Bootstrap
JavaScript (ES6)	React, Node, Express
Database	SQL
Problem Solving	C++

Experience

As a dedicated self-learner, I have independently pursued knowledge in [specific field, e.g., web development, data analysis, machine learning] through various online resources, personal projects, and practical applications. Key achievements include:

Jan 2023 – Present	Jan 2022 – Dec 2022	Jan 2021 – Dec 2021
Web Developer	Database in SQL	PF, OOP, DSA in C++
Self-Employed	UE, Lahore	UE, Lahore

Activities

RACSIT 2024: Participated and presented in the second international conference on Recent Advances in Computer Science and Information Technology organized by UE

UE Code Quest 2024: Participated in the code competition organized by UEIT Society

Web Dev Marathon: I'm currently enrolled for the participation in the upcoming Web Development Marathon by Decentral Developers
